SHAREHOLDER RIGHTS DIRECTIVE II

OUR APPROACH

INTRODUCTION

The Shareholder Rights Directive II (SRD II) aims to promote shareholder engagement and improve transparency and stewardship practices. Effective as of 10 June 2019, it requires asset owners and asset managers to make disclosures about their long-term investment strategies, their arrangements with each other and their engagement with the companies in which they invest.

Walter Scott fully supports the goals of SRD II.

Under SRD II, asset managers must publicly disclose their **Engagement Policy** and, on an annual basis, outline how that policy has been implemented over the period. A record of our significant votes is published on our website annually and should be read in conjunction with our **Annual Sustainability Report**. Together these provide a comprehensive overview of how our **Engagement Policy** has been implemented over the period. All these reports are publicly available on our **website**.

ENGAGEMENT POLICY DISCLOSURE

Our Engagement Policy is published on our website and can be found alongside our **Proxy Voting Policy** in our **ESG Integration Overview & Stewardship Policies** publication.

ANNUAL DISCLOSURE OBLIGATIONS

We summarise and evidence the implementation of our Engagement Policy through regular reporting. As such, details of engagement activity including case studies can be found in our Annual Sustainability Report,

in our **Quarterly Stewardship Commentary** and on our **website**.

PROXY VOTING

We have always believed that proxy voting is essential to good stewardship. We vote client proxies in a manner consistent with our clients' best interests and without regard for any interest Walter Scott may have in the matter. We carefully consider management's views in determining how to vote a proxy, subject in all events to our overall analysis of the likely effect of the vote on a client's interests. Every resolution is considered on an individual basis.

Proxy voting by Walter Scott is undertaken on a 'best endeavours' basis as the votes instructed may not be cast:

- ➔ In certain circumstances including, without limitation, the following examples:
 - The proxy documentation is not delivered timeously to the manager by the relevant custodian or ISS
 - The client has a stock lending programme in place
 - The instructions from the custodian to the voting entity are incomplete.

We publicly disclose how we vote across all holdings on a quarterly basis in our **Proxy Voting Activity** report. In addition to that summary of votes posted on our website, clients also receive specific reports on voting across their portfolio.

SIGNIFICANT & MOST SIGNIFICANT VOTES – METHODOLOGY

To determine whether a vote is significant, we follow a two-step approach.

STEP 1

Identify and Discount Routine Votes

This can include but is not limited to:

- ➔ Most items where we support management, such as election of directors and ratifying auditors
- ➔ Items that we will routinely and typically vote against, in line with our Proxy Voting Policy.

From those votes that remain, we determine if a vote is significant by applying our discretion to a general set of principles. A key consideration is whether an item has the potential to impact shareholder rights or the long-term interests of shareholders. A significant vote need not be a vote against management. It could, for example, be a vote in support of an item requesting approval for a merger or acquisition.

STEP 2

Is a Vote Significant?

In determining whether a vote is significant, questions that we might consider include:

- ➔ Is the item a management proposal which has subsequently failed?
- ➔ Is the item related to a merger, acquisition or spin-off?
- ➔ Does it have an impact on shareholder rights?
- ➔ Do we deem the item to be contrary to the long-term interest of clients?
- ➔ Is the item contentious?
- ➔ Could it result in potential dilution >10%?
- ➔ Are we supporting a shareholder proposal?
- ➔ Does the item present a corporate governance issue?

To determine whether a vote is most significant, we apply our discretion to votes which qualify as significant.

Full disclosure of significant and most significant votes is provided within our SRD II reporting that is posted

within the **Sustainability** section of our **website**.

USE OF PROXY ADVISORS

For proxy voting, ISS is used as our principal external service provider. To ensure that each Stock Champion has all the necessary information on any Annual General Meeting (AGM) or Extraordinary General Meeting (EGM), we receive documentation on forthcoming votes from custodians and ISS. While we receive voting recommendations from ISS as part of the materials provided, that recommendation forms no part of our proxy voting decision-making process.

ANNUAL DISCLOSURE ON BEHALF OF SRD ‘INSTITUTIONAL INVESTORS’

SRD II requires a number of specific disclosures including portfolio composition, turnover and turnover costs, where applicable, where the firm invests on behalf of SRD ‘institutional investors’ whether on a discretionary client-by-client basis or through a collective investment undertaking.

The turnover of equities within a portfolio will vary in relation to the investment strategy. For those mandate clients in scope, portfolio composition, turnover and turnover costs are provided to clients as part of MIFID II reporting.

In regards other areas of required disclosure, we do not undertake stock lending. Any stock lending will be agreed directly, and separately, by our clients and their appointed custodian. As such, we do not typically ask clients to recall stock on loan in order to vote.

Further information on our approach to and understanding of material medium to long-term risks associated with investments is included within our response to the UK Stewardship Code Report. Further information on our Investment decision making based on the medium to long term performance of an investee company, including non-financial performance is also included in that report.

REGULATORY INFORMATION

RISK FACTORS & IMPORTANT INFORMATION

The statements and opinions expressed in this report are those of Walter Scott as at the date stated and do not necessarily represent the view of The Bank of New York Mellon Corporation, BNY Mellon Investment Management or any of their respective affiliates.

All investments have the potential for profit or loss and your capital may be at risk. Past performance is not a guide to future results and returns may increase or decrease as a result of currency fluctuations.

Investing in foreign denominated and/or domiciled securities involves special risks, including changes in currency exchange rates, political, economic, and social instability, limited company information, differing auditing and legal standards, and less market liquidity. These risks generally are greater with emerging market countries.

The material contained in this report which is for general information and reference purposes only and is not intended to provide or be construed as legal, tax, accounting, investment financial or other professional advice on any matter, and is not to be used as such. The contents may not be comprehensive or up to date and are subject to change without notice. Walter Scott assumes no liability (direct or consequential or any other form of liability for errors in or reliance upon this information.

This document should not be published in hard copy, electronic form, via the web or in any other medium accessible to the public, unless authorised by Walter Scott.

Walter Scott has been supporting emerging Scottish talent since 1988. In the same way that we believe that different perspectives within the team generate the best investment ideas, so we believe that our art collection should incorporate a wide range of work from an eclectic group of contemporary artists.

Our commitment to the art community is also reflected in our established partnerships with – and sponsorship of prizes at – the Royal Scottish Academy, the Royal Glasgow Institute of The Fine Arts and the Royal Scottish Society of Painters in Watercolour.
